Successfully tagged elk-docker:latest
arunkumarsrmpha@ip-172-31-31-29:~/Desktop/ELK/elk-docker$ sudo nano docker-compose.yml
```

A screenshot of a web browser displaying the Elastic welcome page. The browser's address bar shows 'localhost:5601/app/home#'. The page features the Elastic logo at the top center, followed by the heading 'Welcome to Elastic'. Below this is a large illustration of a white box with various colorful icons (a bar chart, a pie chart, a line graph, and a document) emerging from it. Under the illustration, the text 'Start by adding integrations' is displayed, followed by a paragraph explaining the benefits of adding data to the cluster. At the bottom of this section are two buttons: 'Add integrations' and 'Explore on my own'. Further down, there is a link to the 'Privacy Statement' and a link to 'disable usage data here'.
